Endurance

Endurance is an attribute of the saints of the most high God. In this day of instant gratification, to be able to endure hardship, persecution and abuse, in all its forms, is admirable indeed!

In the Bible, Matthew 24: 12-13 the words of Christ to his disciples state "Sin will be rampant everywhere, and the love of many will grow cold. But those who endure to the end will be saved."

Take the example of the patriarchs and others, in Hebrews 11 who not only had faith, but endured to the end. They wandered about this world suffering for the cause of their Lord and Master, enduring being despised and ridiculed and many died as martyrs. They looked for a city whose Builder and Maker was God Himself!

Endurance:

- *Ability to bear prolonged hardship-and pain
- *Toleration of hardship-and prolonged suffering
- *Persistence over time
- *Staying power, patience, survival, stamina, fortitude, continued existence

We are living in a society today where endurance is in the minority. Let's endure to the end to receive a crown of life!
